

**Bio: David Schreiber, MD**

David Schreiber, MD, is the CEO and Medical Director of Littleton Radiation Oncology, an independent practice he founded in 1985. Dr. Schreiber specializes in innovative cancer treatments such as Hyperthermia, which heats tumors and increases the effect of radiation therapy on recurrent or progressive tumors; and Brachytherapy, which kills cancer cells by implanting small radioactive seeds that deliver an intense dose of radiation in a very precise manner.

Dr. Schreiber was the Medical Director, Department of Radiation Oncology at Porter Memorial Hospital in Denver; served as Assistant Clinical Professor of Radiation Oncology at the University of Colorado Medical School, Denver, CO and was Chief Resident, Division of Radiation Therapy, Department of Radiology Stanford University Medical Center, Stanford, CA.

He earned his bachelor's degree at Stanford University and his Medical Degree at the Bowman Gray School of Medicine, at Wake Forest University.
